

Become a Corporate Supporter

Improving outcomes for people affected by prostate and other urogenital cancers

ANZUP is the only national cooperative clinical trials group dedicated to prostate and urogenital cancers. ANZUP's mission is to conduct and promote investigator-initiated, cooperative clinical trials and psychosocial research in prostate and urogenital cancers (prostate, testis, kidney, and bladder).

ANZUP is a not-for-profit company and our main funding support is from the Federal Government through Cancer Australia. This support is very valuable however none of the Cancer Australia funding is permitted to be used to cover the costs of actually doing a trial. In order to continue to expand and to perform this very necessary work, there is a pressing need to identify additional sources of funding support. All donations are used for initiating and supporting ANZUP's prostate and urogenital cancer research activities.

As a Corporate Supporter you will be partnering with ANZUP to raise awareness and funds to assist us in improving outcomes for people diagnosed with prostate or urogenital cancers.

Opportunities for your organisation to work with ANZUP include:

- Provide access to ANZUP information to your staff and their families (fact sheets)
- Hold special information forums or presentations in your workplace, community or club;
- Highlighting ANZUP as a potential recipient of bequests
- Identification of and links to other philanthropic donors

How your organisation can benefit from supporting ANZUP

- Access through ANZUP to our multidisciplinary cancer clinical experts on urogenital cancers which could provide advice and support to Scientific Advisory Boards
- Acknowledgement in ANZUP's Annual Report, quarterly newsletter and website
- An annual update on ANZUP cancer trials and potential for new concepts
- Information on ANZUP meetings and other items on its calendar
- Invitation to a biannual meeting with the Chair / Executive Officer to discuss new initiatives, concepts, upcoming events e.g. our Annual Scientific Meeting
- Opportunity to propose / collaborate on other educational events
- Badging of various education resources developed by ANZUP

With your assistance, we will continue to find new and better treatments for urogenital cancers and better outcomes for our community.

ANZUP is endorsed by the Australian Taxation Office with Deductible Gift Recipient Status. An ANZUP Cancer Trials Group Limited tax receipt is provided for each contribution.
